

# DEALER PRICE SCHEDULE

Surpassing production of over 10 billion silver oxide batteries, Murata is recognized as The Global Leader in both the OEM and Replacement watch battery markets.

Only offer your customers the best, our exclusive longer-life Murata Black Label Silver Oxide Batteries!

Murata Silver Oxide Batteries feature the best anti-leakage system in the industry.

Murata offers a "Smarter" Multidrain System, reducing the number of SKUs required without making a compromise.

All SR, CR, and LR Murata batteries are offered in Tear-Strips of 5 cells, and marked with a Use By (best before) date.

Murata invented the 0% Mercury SR battery in 2004. All SR and LR batteries are Mercury Free, and produced in Japan. CR batteries have always been Mercury Free.

All Murata CR batteries size CR1632 or smaller are produced in Japan, all larger CR types are produced in Indonesia.

Your full-line Murata Watch Battery Distributor:
