IMAGEM 3DPRO

ALL-IN-ONE DIGITAL PHOTO BOX WITH ROTARY STAGE, CAMERA, & SOFTWARE

Selling with stunning high resolution visuals is the new norm! Switch to 3DPro and record mesmerizing videos in just 2 minutes . . . 3DPro is fully automatic, just place the jewelry on the stage, center it and record! Imagine the impact on your sales since your customers can spin the high resolution video image in all directions—around and over the piece. It is absolutely amazing for loose stones, rings, jewelry and more.

3DPro captures true 3D videos of engagement rings, earrings, pendants, bangles and other jewelry. The videos are truly amazing, as they dynamically show brilliance, sparkle and intensity from different angles. 3DPro is operated using a laptop computer (not included).
